

Anti-HAGH antibody

Catalog Number: 100290

Product name

Anti-HAGH antibody

Immunogen

[Human HAGH \(His Tag\) recombinant protein](#)

Specificity

Human HAGH / GLO2 / Glyoxalase II

Antibody description

Mouse monoclonal to HAGH

Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human HAGH / GLO2 / Glyoxalase II (rh HAGH / GLO2 / Glyoxalase II; Q16775-2; Met1-Asp260). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.

Formulation

0.2 µm filtered solution in PBS with 5% trehalose

Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Sodium azide is recommended to avoid

contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

Clonality

Monoclonal

Ig Type

Mouse IgG1

Applications

IHC-P

Dilutions

IHC-P: 0.5-5 µg/mL

Validations

HAGH / GLO2 / Glyoxalase II Antibody, Mouse MAb, Immunohistochemistry

Immunochemical staining of human HAGH in human kidney with mouse monoclonal antibody (1 µg/mL, formalin-fixed paraffin embedded sections).
