

Product name

Anti-Biotinidase / biotinase / BTD antibody

Immunogen

Human Biotinidase / biotinase / BTD (His Tag) recombinant protein

Specificity

Human Biotinidase / biotinase / BTD

Antibody description

Rabbit monoclonal to Biotinidase / biotinase / BTD

Preparation

This antibody was obtained from a rabbit immunized with purified, recombinant Human Biotinidase / biotinase / BTD (rh Biotinidase / biotinase / BTD; P43251; Met1-Asp543).

Formulation

 $0.2\;\mu\text{m}$ filtered solution in PBS

Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.

Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

Clonality

Monoclonal

Ig Type

Rabbit IgG

Applications

ELISA, IHC-P

Dilutions

ELISA: 0.1-0.2 µg/mL

This antibody can be used at 0.1-0.2 $\mu g/mL \; \mu g/ml$ with the appropriate secondary reagents to detect Human Biotinidase / biotinase / BTD.

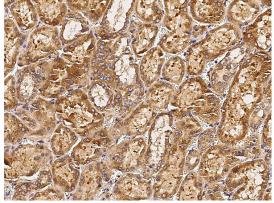

IHC-P: 1-10 μ g/mL

Validations

Biotinidase / biotinase / BTD Antibody, Rabbit MAb, Immunohistochemistry

Immunochemical staining of human BTD in human liver with rabbit monoclonal antibody (5 µg/mL, formalin-fixed paraffin embedded sections).

Biotinidase / biotinase / BTD Antibody, Rabbit MAb, Immunohistochemistry

Immunochemical staining of human BTD in human kidney with rabbit monoclonal antibody (5 $\mu g/mL,$

Catalog Number: 101569

formalin-fixed paraffin embedded sections).
