

Anti-CXADR / CAR antibody

Catalog Number: 103311

Product name

Anti-CXADR / CAR antibody

Immunogen

[Mouse CXADR / CAR \(His Tag\) recombinant protein](#)

Specificity

Mouse CXADR

Antibody description

Rabbit polyclonal to CXADR / CAR

Preparation

Produced in rabbits immunized with purified, recombinant Mouse CXADR (rM CXADR; NP_001020363.1; Met 1-Gly 237). CXADR specific IgG was purified by Mouse CXADR affinity chromatography.

Formulation

0.2 µm filtered solution in PBS with 5% trehalose

Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C.

Preservative-Free.

Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

Clonality

Polyclonal

Ig Type

Rabbit IgG

Applications

ELISA, IHC-P

Dilutions

ELISA: 0.1-0.2 µg/mL

This antibody can be used at 0.1-0.2 µg/mL with the appropriate secondary reagents to detect Mouse CXADR. The detection limit for Mouse CXADR is approximately 0.00975 ng/well.

IHC-P: 0.1-2 µg/mL

Validations

CXADR Antibody, Rabbit PAb, Antigen Affinity Purified, Immunohistochemistry

Immunochemical staining of mouse CXADR in mouse liver with rabbit polyclonal antibody (1 µg/mL, formalin-fixed paraffin embedded sections). The left panel: tissue incubated with primary antibody; The right panel: tissue incubated with the mixture of primary antibody and antigen (recombinant protein).

CXADR Antibody, Rabbit PAb, Antigen Affinity

Anti-CXADR / CAR antibody

Catalog Number: 103311

Purified, Immunohistochemistry

Immunochemical staining of mouse CXADR in

mouse stomach with rabbit polyclonal antibody (1
μg/mL, formalin-fixed paraffin embedded
sections).
