

Anti-Histone H3 antibody

Catalog Number: 142227

General Information

Product name:

Anti-Histone H3 antibody

Immunogen:

Applications:

WB, IHC-P, IP

Specificity:

Human Histone H3

Antibody description:

Mouse Monoclonal to Human Histone H3

Properties

Preparation:

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with a synthetic peptide corresponding to the C-terminus of the human Histone H3. The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.

Formulation:

0.2 µm filtered solution in PBS with 5% trehalose

Storage:

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C.

Preservative-Free.

Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

Clonality:

Monoclonal

Ig Type: Mouse IgG2b

Applications

WB: 1/1000-1/10000

IHC-P: 1/50-1/1000

IP: 4-10 uL/mg of lysate

Validations

Item	Lanes
Sample (whole cell lysate)	A431
Sample quantity	0.5 mg
IP antibody quantity	4 µL
Protein G agarose	1.5 µl of 50% Protein G Agarose
Gel	13% SDS-PAGE reducing gel
Primary antibody	BSA-SINO A05 antibody at 10 µg/ml
Secondary antibody	Dylight 800-labeled antibody to Mouse IgG (F11), at 1:7500 dilution.

Histone H3 Antibody, Mouse MAb, Immunoprecipitation

Histone H3 Antibody, Mouse Mab, Immunocytochemistry
