

# Human HMGB1/HMG1 recombinant protein

Catalog Number: 519837

## General Information

### Gene Name Synonym

High Mobility Group Protein B1, High Mobility Group Protein 1, HMG-1, HMGB1, HMG1

### Protein Construction

A DNA sequence encoding the Human HMGB1/HMG1 Pro92-Val176 is expressed with a MARI tag at the N-terminus.

### Organism

Human

### Expression Host

E. coli

## QC Testing

### Purity

>95% as determined by SDS-PAGE.

### Endotoxin

<1.0 EU per  $\mu\text{g}$  protein as determined by the LAL method.

### Stability

Store for up to 12 months at  $-20^{\circ}\text{C}$  to  $-80^{\circ}\text{C}$  as lyophilized powder. Aliquots of reconstituted samples are stable at  $< -20^{\circ}\text{C}$  for 3 months.

### Formulation

Lyophilized from a  $0.2\ \mu\text{m}$  filtered solution of 50mM HEPES- $\text{Na}_p\text{H}$  7.9 500mM NaCl 0.6mM DTT.

## Usage Guide

### Storage

Lyophilized protein should be stored at  $<-20^{\circ}\text{C}$ , though stable at room temperature for 3 weeks. Reconstituted protein solution can be stored at  $4-7^{\circ}\text{C}$  for 2-7 days.

### Reconstitution

Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than  $100\mu\text{g/ml}$ . Dissolve the lyophilized protein in ddH<sub>2</sub>O. Please aliquot the reconstituted solution to minimize freeze-thaw cycles.

### SDS-PAGE

Human HMGB1/HMG1 recombinant protein
