

# Human RTN4/KIAA0886/NOGO/My043/SP1507 (GST tag) recombinant protein

Catalog Number: 518197

## General Information

### Gene Name Synonym

Reticulon-4, Neuroendocrine-specific protein, Neuroendocrine-specific protein C homolog, Foccen, Neurite outgrowth inhibitor, RTN-x, NOGO and Reticulon-5.

### Protein Construction

A DNA sequence encoding the Human RTN4/KIAA0886/NOGO/My043/SP1507 Met1-Val185 is expressed with a GST tag at the N-terminus.

### Organism

Human

### Expression Host

E.coli

## QC Testing

### Purity

>95% as determined by SDS-PAGE.

### Endotoxin

<1.0 EU per µg protein as determined by the LAL method.

### Stability

Store for up to 12 months at -20°C to -80°C as lyophilized powder. Aliquots of reconstituted samples are stable at < -20°C for 3 months.

## Formulation

Lyophilized from a 0.2 µm filtered solution of 20mM PB<sub>150</sub>mM NaCl, pH7.4.

## Usage Guide

### Storage

Lyophilized protein should be stored at <-20°C, though stable at room temperature for 3 weeks. Reconstituted protein solution can be stored at 4-7°C for 2-7 days.

### Reconstitution

Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than 100µg/ml. Dissolve the lyophilized protein in ddH<sub>2</sub>O. Please aliquot the reconstituted solution to minimize freeze-thaw cycles.

## SDS-PAGE

Human RTN4/KIAA0886/NOGO/My043/SP1507 (GST tag) recombinant protein
