# **Anti-HAGH antibody**

Catalog Number: 100290

### **Product name**

Anti-HAGH antibody

### Immunogen

Human HAGH (His Tag) recombinant protein

# **Specificity**

Human HAGH / GLO2 / Glyoxalase II

# **Antibody description**

Mouse monoclonal to HAGH

### **Preparation**

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human HAGH / GLO2 / Glyoxalase II (rh HAGH / GLO2 / Glyoxalase II; Q16775-2; Met1-Asp260). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.

#### **Formulation**

0.2 µm filtered solution in PBS with 5% trehalose

# **Storage**

This antibody can be stored at  $2^{\circ}\text{C-8}^{\circ}\text{C}$  for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at  $-20^{\circ}\text{C}$  to  $-80^{\circ}\text{C}$ .

Preservative-Free.

Sodium azide is recommended to avoid

contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

### **Clonality**

Monoclonal

### **Ig Type**

Mouse IgG1

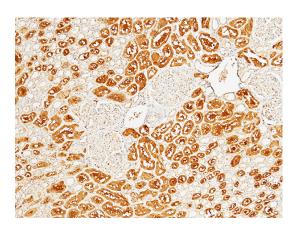

## **Applications**

IHC-P

#### **Dilutions**

IHC-P:  $0.5-5 \mu g/mL$ 

#### **Validations**

HAGH / GLO2 / Glyoxalase II Antibody, Mouse MAb, Immunohistochemistry

Immunochemical staining of human HAGH in human kidney with mouse monoclonal antibody (1  $\mu$ g/mL, formalin-fixed paraffin embedded sections).
