

# Human PPC-DC / PPCDC (His Tag) recombinant protein

Catalog Number: 501908

## General Information

### Gene Name Synonym

CoaC

### Protein Construction

A DNA sequence encoding the mature form of human PPCDC (AAH14409.1) (Met1-Ser204) was expressed with a polyhistidine tag at the N-terminus.

### Organism

Human

### Expression Host

E. coli

## QC Testing

### Purity

> 95 % as determined by SDS-PAGE

### Endotoxin

Please contact us for more information.

### Stability

Samples are stable for up to twelve months from date of receipt at -70°C

### Predicted N terminal

His

### Molecular Mass

The recombinant human PPCDC consists of 219

amino acids and predicts a molecular mass of 24.3 KDa. It migrates as an approximately 24 KDa band in SDS-PAGE under reducing conditions.

### Formulation

Lyophilized from sterile PBS, 15% Glycerol, pH 8.0.

1. 5 % trehalose and mannitol are added as protectants before lyophilization.

2. Please contact us for any concerns or special requirements.

## Usage Guide

### Storage

Store it under sterile conditions at -20°C to -80°C. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

### Reconstitution

Adding sterile water, prepare a stock solution of 0.25 mg/ml. Concentration is measured by UV-Vis.

### SDS-PAGE

Human PPC-DC / PPCDC Protein (His Tag) SDS-PAGE
