

Anti-IL-17R/IL-17RA [CD217] antibody

Catalog Number: 102608

Product name

Anti-IL-17R/IL-17RA [CD217] antibody

Immunogen

[Human IL-17R/IL-17RA \[CD217\] \(His Tag\) recombinant protein](#)

Specificity

Human IL17RA / CD217

No cross-reactivity with Human cell lysate (293 cell line) in WB and ELISA.

Antibody description

Mouse monoclonal to IL-17R/IL-17RA [CD217]

Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human IL17RA (rh IL17RA; NP_055154.3; Met 1-Trp 320). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.

Formulation

0.2 µm filtered solution in PBS with 5% trehalose

Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of

receipt when stored at -20°C to -80°C.

Preservative-Free.

Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

Clonality

Monoclonal

Ig Type

Mouse IgG1

Applications

WB

Dilutions

WB: 10-20 µg/mL

Validations

Items	Lanes	A
Sample (membrane lysate)		HeLa
Sample Volume (µg/lane)		30
Gel		13% SDS-PAGE reducing gel
Recommended Concentration		10-20 µg/ml
Secondary Antibody		Dylight 800 labeled Antibody To Mouse IgG (H+L), at 1:7500 dilution.

IL17RA / CD217 Antibody, Mouse MAb, Western blot
