

# Cynomolgus Thrombopoietin/THPO (His Tag) recombinant protein

Catalog Number: 504571

## General Information

### Protein Construction

A DNA sequence encoding the Cynomolgus (Macaca fascicularis) THPO (Met 1-Gly 353) precursor was expressed, with a C-terminal polyhistidine tag.

### Organism

Cynomolgus

### Expression Host

Human Cells

## QC Testing

### Activity

Measured in a cell proliferation assay using MO7e human megakaryocytic leukemic cells. The ED<sub>50</sub> for this effect is typically 1-5 ng/ml.

### Purity

> 86 % as determined by SDS-PAGE

### Endotoxin

< 1.0 EU per µg of the protein as determined by the LAL method

### Stability

Samples are stable for up to twelve months from date of receipt at -70°C

### Predicted N terminal

Ser 22

### Molecular Mass

The recombinant cynomolgus THPO consists of 343 amino acids and has a calculated molecular mass of 36.8 kDa. The apparent molecular mass of the recombinant protein is approximately 70-80 kDa in SDS-PAGE under reducing conditions due to glycosylation.

### Formulation

Lyophilized from sterile PBS, pH 7.4

1. 5 % trehalose and mannitol are added as protectants before lyophilization.

2. Please contact us for any concerns or special requirements.

## Usage Guide

### Storage

Store it under sterile conditions at -20°C to -80°C. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

### Reconstitution

Adding sterile water, prepare a stock solution of 0.25 mg/ml. Concentration is measured by UV-Vis.

### SDS-PAGE

Cynomolgus Thrombopoietin / THPO / TPO Protein (His Tag) SDS-PAGE
