

Product name

Anti-BCAM / CD239 antibody

Immunogen

Human BCAM / CD239 (His Tag) recombinant protein

Specificity

Human BCAM

Antibody description

Rabbit polyclonal to BCAM / CD239

Preparation

Produced in rabbits immunized with purified, recombinant Human BCAM (rh BCAM; NP_005572.2; Met1-Ala547). BCAM specific IgG was purified by Human BCAM affinity chromatography.

Formulation

 $0.2\ \mu m$ filtered solution in PBS with 5% trehalose

Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.

Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

Clonality

Polyclonal

Ig Type

Rabbit IgG

Applications

ELISA, WB, IHC-P, IP

Dilutions

WB: 2-5 µg/mL

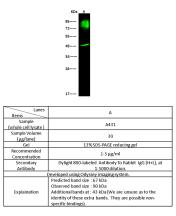

ELISA: 0.1-0.2 µg/mL

This antibody can be used at 0.1-0.2 μ g/mL with the appropriate secondary reagents to detect Human BCAM. The detection limit for Human BCAM is approximately 0.00975 ng/well.

IHC-P: 0.1-2 µg/mL

IP: 1-4 $\mu g/mg$ of lysate

Validations

BCAM Antibody, Rabbit PAb, Antigen Affinity

	100			← RCAM ← IgG beevy chain
Lanes	A			в
Sample (whole cell lysate)	Hela		MCF-7	
Sample quantity	0.5 mg			
IP antibody quantity	2 µg			
Protein G agarose	15 µl of 50% Protein G Agarose			
Gel	13% SDS-PAGE reducing gel			
Primary antibody	BCAM antibody at 5 µg/ml			
Secondary antibody	Dylight 800-labeled antibody to rabbit IgG (H+L), at 1:5000 dilution.			

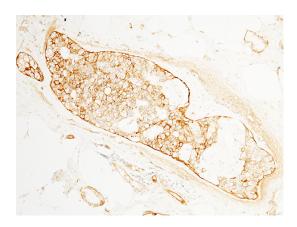

Purified, Western blot

BCAM Antibody, Rabbit PAb, Antigen Affinity Purified, Immunoprecipitation

Anti-BCAM / CD239 antibody

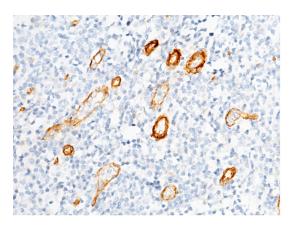

Catalog Number: 106271

BCAM Antibody, Rabbit PAb, Antigen Affinity Purified, Immunohistochemistry

Immunochemical staining of human BCAM in human breast carcinoma with rabbit polyclonal antibody (1 μ g/mL, formalin-fixed paraffin embedded sections). Positive staining was localized to the epithelia and endothelium.

BCAM Antibody, Rabbit PAb, Antigen Affinity Purified, Immunohistochemistry

Immunochemical staining of human BCAM in human tonsil with rabbit polyclonal antibody (1 μ g/mL, formalin-fixed paraffin embedded sections). Positive staining was localized to the endothelium of blood vessel walls.
