

# Anti-Bile salt-activated lipase antibody

Catalog Number: 106149

## Product name

Anti-Bile salt-activated lipase antibody

## Immunogen

[Mouse Bile salt-activated lipase \(His Tag\) recombinant protein](#)

## Specificity

Mouse Bile salt-activated lipase / CEL

## Antibody description

Rabbit polyclonal to Bile salt-activated lipase

## Preparation

Produced in rabbits immunized with purified, recombinant Mouse Bile salt-activated lipase / CEL (rM Bile salt-activated lipase / CEL; NP\_034015.1; Met1-Leu534). Bile salt-activated lipase / CEL specific IgG was purified by Mouse Bile salt-activated lipase / CEL affinity chromatography.

## Formulation

0.2 µm filtered solution in PBS

## Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.

Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

## Clonality

Polyclonal

## Ig Type

Rabbit IgG

## Applications

ELISA, IHC-P

## Dilutions

ELISA: 0.1-0.2 µg/ml

This antibody can be used at 0.1-0.2 µg/ml with the appropriate secondary reagents to detect Mouse Bile salt-activated lipase / CEL.

IHC-P: 0.1-2 µg/mL

## Validations

Bile salt-activated lipase / CEL Antibody, Rabbit PAb, Antigen Affinity Purified, Immunohistochemistry

Immunochemical staining of mouse CEL in mouse pancreas with rabbit polyclonal antibody (0.5 µg/mL, formalin-fixed paraffin embedded sections).
