

# Human Sclerostin/SOST (His Tag) recombinant protein

Catalog Number: 501953

## General Information

### Protein Construction

A DNA sequence encoding the mature form of human SOST (NP\_079513.1) (Gln 24-Tyr 213) was fused with a polyhistidine tag at the N-terminus.

### Organism

Human

### Expression Host

Human Cells

## QC Testing

### Purity

> 90 % as determined by SDS-PAGE

### Endotoxin

< 1.0 EU per  $\mu\text{g}$  of the protein as determined by the LAL method

### Stability

Samples are stable for up to twelve months from date of receipt at  $-70^{\circ}\text{C}$

### Predicted N terminal

N-His

### Molecular Mass

The recombinant human SOST is a monomeric protein consisting of 197 amino acids and predicts a molecular mass of 22.5 kDa. As a result of glycosylation, the apparent molecular mass of

rhSOST is approximately 28 kDa in SDS-PAGE under reducing conditions..

### Formulation

Lyophilized from sterile PBS, pH 7.2

1. 5 % trehalose and mannitol are added as protectants before lyophilization.

2. Please contact us for any concerns or special requirements.

## Usage Guide

### Storage

Store it under sterile conditions at  $-20^{\circ}\text{C}$  to  $-80^{\circ}\text{C}$ . It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

### Reconstitution

Adding sterile water, prepare a stock solution of 0.25 mg/ml. Concentration is measured by UV-Vis.

### SDS-PAGE

Human Sclerostin / SOST Protein (His Tag) SDS-PAGE
