

Human FGF12/FGF12B/FHF1 recombinant protein

Catalog Number: 518983

General Information

Gene Name Synonym

Fibroblast Growth Factor 12, FGF-12, Fibroblast Growth Factor Homologous Factor 1, FHF-1, Myocyte-Activating Factor, FGF12, FGF12B, FHF1

Protein Construction

A DNA sequence encoding the Human FGF12/FGF12B/FHF1 Met1-Thr181 is expressed.

Organism

Human

Expression Host

E. coli

QC Testing

Purity

>95% as determined by SDS-PAGE.

Endotoxin

<1.0 EU per μg protein as determined by the LAL method.

Stability

Store for up to 12 months at -20°C to -80°C as lyophilized powder. Aliquots of reconstituted samples are stable at $< -20^{\circ}\text{C}$ for 3 months.

Formulation

Lyophilized from a $0.2\ \mu\text{m}$ filtered solution of 20mM PB, 150mM NaCl, 5mM EDTA, pH 7.5.

Usage Guide

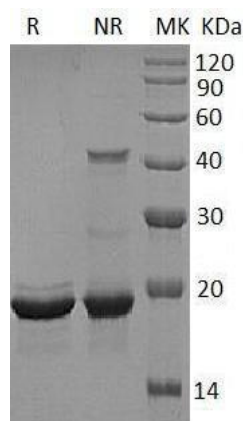

Storage

Lyophilized protein should be stored at $<-20^{\circ}\text{C}$, though stable at room temperature for 3 weeks. Reconstituted protein solution can be stored at $4-7^{\circ}\text{C}$ for 2-7 days.

Reconstitution

Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than $100\ \mu\text{g}/\text{ml}$. Dissolve the lyophilized protein in ddH₂O. Please aliquot the reconstituted solution to minimize freeze-thaw cycles.
