# Recombinant c-NAD-MDH1 protein (6\*His tag)

Catalog Number: 530265

## **General Information**

### **Protein Construction**

1-332 aa encoded by AT1G04410.1 was inserted into pET30a vector

# **Organism**

Arabidopsis thaliana

# **Expression Host**

E. coli

# **QC Testing**

## **Activity**

Not tested.

## **Purity**

85%, by SDS-PAGE with Coomassie Brilliant Blue staining.

#### **Endotoxin**

Please contact the lab for more information.

### **Stability**

Store for up to 12 months at -20°C to -80°C as lyophilized powder.

## **Formulation**

The purified protein was Lyophilized from sterile PBS (58mM Na2HPO4,17mM NaH2PO4, 68mM NaCl, pH7.). 5 % trehalose and 5 % mannitol are added as protectants before lyophilization.

# **Usage Guide**

# **Storage**

Store it under sterile conditions at -20°C to -80°C. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

### Reconstitution

Reconstitute at 0.25  $\mu$ g/ $\mu$ l in 200  $\mu$ l sterile water for short-term storage. Reconstitution with 200  $\mu$ l 50% glycerol solution is recommended for longer term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.

#### **SDS-PAGE**

Recombinant Arabidopsis thaliana c-NAD-MDH1 SDS-PAGE
