Human NCAPH

## Antibody description

Rabbit Polyclonal to Human NCAPH

## Preparation

Produced in rabbits immunized with a synthetic peptide corresponding to the C-terminus of the Human NCAPH, and purified by antigen affinity chromatography.

## Formulation

0.2  $\mu$ m filtered solution in PBS

## Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C.
