

Human SHH / Sonic hedgehog (aa 198-462, His Tag) recombinant protein

Catalog Number: 501956

General Information

Gene Name Synonym

HHG-1; Sonic hedgehog protein N-product; Sonic hedgehog protein C-product

Protein Construction

A DNA sequence encoding the amino acid sequence (Cys 198-Ser 462) of human SHH (Q15465), that is Sonic hedgehog protein C-product, was fused with a polyhistidine tag at the C-terminus and a signal peptide at the N-terminus.

Organism

Human

Expression Host

Human Cells

QC Testing

Activity

Measured by its ability to induce alkaline phosphatase production by C3H10T1/2 mouse fibroblasts.

The ED₅₀ for this effect is 12-24 µg/mL.

Purity

> 97 % as determined by SDS-PAGE

Endotoxin

< 1.0 EU per µg of the protein as determined by the LAL method

Stability

Samples are stable for up to twelve months from date of receipt at -70°C

Predicted N terminal

Cys 198

Molecular Mass

The recombinant human SHH(aa 198-462) consists of 276 amino acids and has a predicted molecular mass of 29 kDa. The apparent molecular mass of the protein is approximately 35 kDa in SDS-PAGE under reducing conditions due to glycosylation.

Formulation

Lyophilized from sterile PBS, pH 7.4

1. 5 % trehalose and mannitol are added as protectants before lyophilization.

2. Please contact us for any concerns or special requirements.

Usage Guide

Storage

Store it under sterile conditions at -20°C to -80°C. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

Reconstitution

Adding sterile water, prepare a stock solution of 0.25 mg/ml. Concentration is measured by UV-Vis.

SDS-PAGE

Human SHH / Sonic hedgehog Protein (aa 198-462, His Tag) SDS-PAGE
