

# Human RALA Recombinant protein (GST tag & His tag)

Catalog Number: 511866

## Protein Construction

A DNA sequence encoding the human RALA (XP\_054214727.1) 1-206 aa was fused with the N-terminal GST tag and C-terminal 6His tag

## Organism

Human

## Expression Host

E. coli

## Activity

Not tested.

## Endotoxin

Please contact the lab for more information.

## Stability

Aliquot and store at -20°C to -80°C for up to 6 months. Avoid freeze thaw cycles.

## Formulation

PBS (58mM Na<sub>2</sub>HPO<sub>4</sub>, 17mM NaH<sub>2</sub>PO<sub>4</sub>, 68mM NaCl, pH7.4).

## Storage

Store it under sterile conditions at -20°C to -80°C.

It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

## Reconstitution

Reconstitute at 0.25 µg/µl in sterile water for short-term storage. Reconstitution with 50% glycerol solution is recommended for longer term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.

## SDS-PAGE

Recombinant human RALA(Full length) SDS-PAGE
